Intelligent Healthcare currently maintains client healthcare data for analyses of services to over 2,000,000 HMO enrollees. Our services are *affordable, convenient*, and offer a variety of *choices* to support provider groups, hospitals and health plans. Our services are customized to meet your needs in your market. Our clients also have *secure access* on the Internet at www.intelhc.com to our work.

Cost & Utilization Studies

We provide detailed analysis of your experience in many different ways – by provider, specialty, service type, pay status, health plan, procedure code, diagnosis code, demographics, case risks and outliers. **Intelligent Healthcare** charts your cost and utilization experience for easy-to-understand trends. Standard reports are designed for convenience, and custom reports are offered to match your needs. Summary and detail level reports are completed with explanations and recommendations.

Physician Scorecard

The Scorecard plays a major role in evaluating physicians, physician groups, and payors. It incorporates widely accepted quality measures to provide cost effective tools for physician groups. The Scorecard process is a dynamic learning experience reporting on up to ten indicators typically presented as four quadrants – member satisfaction perspective, service perspective, cost perspective and care perspective.
