

BENCHMARKS

easy-to-use, Web-based reports and charts

Benchmark your data against similar enrollment

- ✔ Intelligent Healthcare calculates utilization rates and cost, and compares them to benchmarks – utilization and cost trends that are tracked over time.
- ✔ Using benchmarks from our large database provides a tool to help you focus on what you need to know about your organization's performance. Accurate and targeted reports on costs and utilization helps you take action to improve your performance.
- ✔ Benchmarks reflect risk adjustments for your patient population based on episodes, age/sex, benefit, and location.
